

# MILFOIL MADNESS

Information Session on a Eurasian Water Milfoil

**CONTROL METHOD !**

**LOCKERBY LEGION, Long Lake Road - April 11<sup>th</sup> @ 6:30 p.m.**

Eurasian Water Milfoil (EWM) is an invasive aquatic plant spreading across North America

*The Greater Sudbury Watershed Alliance (GSWA) presents*

Giorgio Vecco - Executive Director of *ABV des 7*, a Quebec organization of 7 watersheds, who explains the history of several projects, studies on EWM.

Rob Perrins - P Eng. Block-Aid Inc. Contractor who installs **jute tarps** and supplies jute tarp kits for individual property owners.

## LEARN:

- How to help **Stop the Spread** of EWM and other invasive species
- How jute tarps can prevent the growth of EWM, yet allow indigenous plants to survive
- About the success stories from experimental projects on Quebec lakes
- How to manage EWM near your lake property
