2015 Budget Input

Presented by Lesley Flowers to
The City of Greater Sudbury

Watershed and Sub watershed Studies

- Set watershed and sub-watershed studies as a budget priority - \$250,000;
- Place watershed and sub-watershed plans into a permanent budget line to be carried forward year after year;
- Accept the Official Plan lake priority list, while ensuring that Ramsey Lake is the first to be studied.

Water and Waste Water

Adequate Funding

Prevent Sewage by-passes

Solve inflow and infiltration

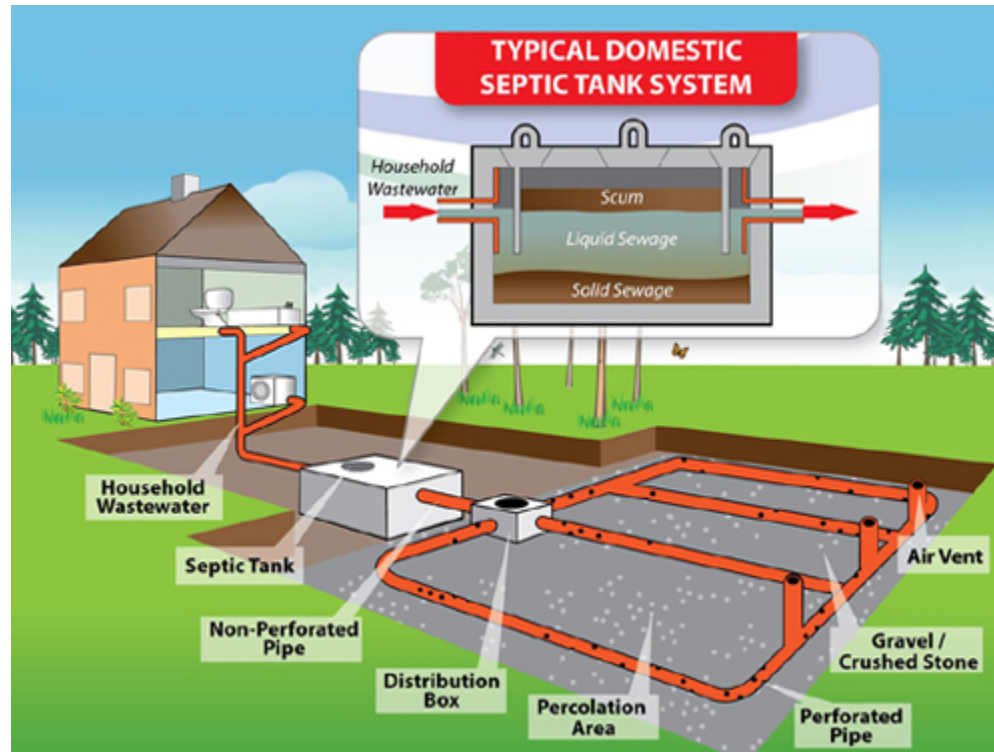

Support the Sewage Use by-law

Update aging infrastructure

Waste water Stewardship Reports

A review of these reports shows that there were 61 by-pass events in 2014. Of these, 19 occurrences were termed major. For example a particularly major event occurred on October 15, 2014 when 325,058 cubic metres of raw sewage was released into Junction Creek with only partial disinfection.

Private Source Drinking Water Protection

Greater Sudbury Take the Lead

- Mandatory Inspection and Regular Maintenance of Private Sewage treatment systems
- Failing systems contaminate drinking water sources
- Protect the health and safety of rural and suburban residents who obtain their water from wells and surface water sources

Thank you

Greater Sudbury
